### Problem

Given a list of space separated words, reverse the order of the words. Each line of text contains  $L$  letters and  $w$  words. A line will only consist of letters and space characters. There will be exactly one space character between each pair of consecutive words.

### Input

The first line of input gives the number of cases,  $N$ .

$N$  test cases follow. For each test case there will a line of letters and space characters indicating a list of space separated words. Spaces will not appear at the start or end of a line.

### Output

For each test case, output one line containing "Case # $x$ : " followed by the list of words in reverse order.

### Limits

#### Small dataset

$N = 5$   
 $1 \leq L \leq 25$

#### Large dataset

$N = 100$   
 $1 \leq L \leq 1000$

### Sample

Input	Output
3	Case #1: test a is this
this is a test	Case #2: foobar
foobar	Case #3: base your all
all your base
